Re: Hazardous Waste Permit Application for McQuay-Norris Inc.
St. Louis Plant MOT30010345.

Dear Mr. Lewis

We received the notice indicating that our application was incomplete and we have entered the info on the application.

The notice required an answer by 4/22/81 but the letter arrived in my office on 5/1/81.

We still do not have a photograph of the storage site. Our planned storage area had not been completed when the notice was received, therefore, we have elected to expedite the move and then supply photographs of the permanent site. If this program is acceptable we will have the additional information available by 6/15/81. If this is not acceptable we can return the completed application and follow with the photographs on 6/15/81. If there are any question you may contact me at my office (phone number (314)776-4800).

Very truly yours,

T. F. Moore
